-Fun. This game is very fun!!! But don't be fooled, theres alot of pop ups and scream moments haha. Also, don't buy it thinking its easy. THIS IS HARD! Running from chester took me forever! Heres my gameplay,

<https://www.youtube.com/watch?v=R8CGnHYmACo&t=44s>. Holy hell.

How? How did they take a terrible game, and give it an even more atrocious sequel.

Aside from the game itself not being fun (because, come on, it came out over 20 years ago), the acting is abysmal. It makes you gnash your teeth together it's so bad. And the <hahaha> story <hahaha> Jesus Christ, it's something so painful to watch that I want these creators, writers, and ctors to take an oath, before man and god, that they will never produce anything ever again in their lives.. THESE PAINT JOBS ARE AWESOME!. The plot line and asethic are interesting, however actually playing the game it falls flat.. Good cutscenes, shorter than Lego Star Wars, but still a lengthy adventure. It's faithful to the movies, much more than the sequel, in which the trilogy took a back seat to Crystal Skull. Lots of in-jokes and funny references. When I was nine years old, I missed a few of the jokes, but coming back now, I got a good laugh out of this game. I pre-ordered this game in 2008, got it about 70% complete. As of writing this, 26 November 2016, eight years later, I have achieved 100%. I was also dressed as Indiana Jones when I beat it.

Edit: Forgot to mention that for an eight year old game, it looks great in 1080p and runs extremely well and at a high framerate. I can't get that kind of performance out of similar games from that era, e.g. Fallout 3.. servers offline XD. Same Thoughts On This One...

Read Review The End Is Nigh Part 1!!!!!!.. Not fun, make smoother movement

Very simple and harder than I thought at first. The boxes move when clicked so be careful with that. It's easiest to please the governor by just convicting everyone. It's up to you whether you roleplay or not.. Butsbal is competitive gaming concentrated into a singular focused experience. It has the best character balance and net code of any online game I've ever played, every match, every moment, is different and engaging. On top of all this it manages to sneak in an emotionally impactful story that will have you laughing, crying, and gritting your teeth. This is the game of a generation, buy it, don't wait for a sale, in fact if there is a sale wait for it to end so that these devs can continue making their art. ♥♥♥♥ overwatch, ♥♥♥♥ fartnite, ♥♥♥♥ buttfeld and COD, this is real gaming. Todd Howard take notes.. Sad there are quite a few fake reviews for this one - if the devs would be honest, there would be no problem. Yes, this is a cheapo rush job that has you gunning hordes of zombies. But story? What story? There's no story. It's Killing Floor without the good voice acting and definitely without the graphics. This is a seriously janky and ugly game. Dead Trigger on Android was much better looking and played infinitely better in late 2012, plus DID have a story. Wouldn't call this one a con because it's so cheap, but it's ugly, pointless, and riddled with issues like your character being unable to enter doors. Plus the maps are tiny on top of being totally bland, they're basically one room. I don't know why I was tempted by this.. Neat little game to experience in VR. It was on sale for a few cents, so I decided to get it. Definitely worth the price I paid.. so much fun
