Send upon the rays of love and wisdom to greet each of you at this
a blessings of accelerated awakening, the blessings of integration of
the quantum field, laughter, and peace. Greetings Beloved Ones.

Greetings Leif Kathami! And it is with great joy and pleasure in our hearts that we may gather with
each of you upon this day as we hold you firmly within the heart of Christ and securely upon the
hands of God. Beloved ones today is a very important day indeed for there
taking place on numerous levels. Today is the activation of the 22 22 star
architect of your universe. This energy impacts on all of you as master
of quantum consciousness. It is also a planetary DNA activation in ether
divine nature awakening within the cell that is moving beyond the ego's
pain, and each of you are also connecting with and anchoring through all
living connected to the earth plane, your 22 chakras of your human body. Some of you present here
today have already activated the 22 chakras and these are the members of this group who travelled
to Montserrat this past weekend and anchored the energy physically with the dolphins at the place
called the Point of Gold. Those of you present, you are facilitating the anchoring for the group here
today. It will take this group approximately 8 weeks to integrate this energy, to fully anchor it,
whereas those who were physically present anchored it in four days. Be aware that your body will
respond to the high vibrational frequency of these 22 chakras which I shall go into in depth, for this
is something we have asked this channel to take further and to facilitate a facilitator's workshop so
that those of you interested in doing the same activations as others will be in a position to do so for
you will have integrated the energy and gone through the 22 initiations that are required of you to
hold the human body in place linked to your own collective mind and that of the collective human
Galactic grid of quantum energy.

Let us begin with the activation of the 22 22 star gate. This particular activation is awakening
within each of you the master architect code. Beloved ones this activation and the awakening of this
code will initiate the stirring of your memory as a master architect within the universe of infinite
creation and possibility. The quantum world is where everything that can ever come into existence
exists, all potential and every possibility exists within this place. All of you here are ready to
increase the vibration of your quantum energy body and take it to a higher level. This will result in
an accelerated release of imprints, programs and implants that keep you attached to addictive
behaviour relating to limitations specifically. It will manifest in the accelerated release of all the
ego's attachments to limitations and its need to create pain and suffering in order for you to feel
